## CERTIFICATE OF COMPLIANCE

Regal Packaging Services Inc., as a supplier of set products, testifies that the metals used are certified as being accurate in size and type (Grade 200 or better) and are traceable to the NIST standard (681/280800-11) applicable for this industry. Each test piece is verified to attenuate the appropriate x-ray, proportional to the density of the metal sphere size/type and x-ray detector settings. The x-ray attenuation achieved from these products does not deteriorate over time and our certificates do not expire. All items are approved for food contact in accordance with the FDA, Title 21 CFR 177.

| TYPE     | SIZE   | CERTIFICATE |
|----------|--------|-------------|
| Aluminum | 6.0 mm | 100206      |

\* All tolerances are grade 200 or better

| Grade | Ball Diameter Variation | Lot Diameter Variation [in] | Nominal Ball Diameter Tolerance [in] | Maximum Surface Roughness (Ra) [in] |
|-------|-------------------------|-----------------------------|--------------------------------------|-------------------------------------|
| 200   | 0.0002                  | 0.0004                      | +/-0.001                             | 8.00                                |

### Composition

|           |         |
|-----------|---------|
| Manganese | 0.70%   |
| Copper    | 4.00%   |
| Magnesium | 0.50%   |
| Aluminum  | Balance |
