CERTIFICATE OF COMPLIANCE

Regal Packaging Services Inc., as a supplier of set products, testifies that the ceramic balls used are certified as being accurate and in conformance in type and material specification traceable to standard measurements applicable for this industry. Each lot is verified to attenuate the appropriate x-ray, proportional to the density of the ceramic sphere size/type and x-ray detector settings. The x-ray attenuation achieved from these products does not deteriorate over time and our certificates do not expire. All ceramic spheres meet Occupational Safety and Health Administration requirements under USDL regulations, 29 aCFIT 1915, 1916, 1917.
